A Community event!

**July 16, 2019, 6:30-8:30 p.m.
Fairfield United Methodist Church
1505 NC Hwy 62 W
High Point, NC**

“The child may not remember, but the body remembers.”

Researchers have discovered a dangerous biological syndrome cause by abuse and neglect during childhood. As the documentary “Resilience” reveals, toxic stress triggers hormones that wreak havoc on the brains and bodies of children, putting them at greater risk for disease, homelessness, incarceration, and early death.

“Resilience” chronicles the dawn of a movement that is determined to fight back. Trailblazers in pediatrics, education, and social welfare are using cutting-edge science and field-tested therapies to protect children from the insidious effects of toxic stress—and the dark legacy of a childhood that no child would choose.

Child Care Available

- ◆ Ages **available for care:** infant to school age
- ◆ No cost
- ◆ Preschool teachers from Freedom Preschool will provide child care on site at Fairfield UMC
- ◆ Registration for child care for this event is required by Friday, July 12.

To register, contact Kristy Umfleet at Randolph Partnership for Children:
(336) 629-2128 ext. 29 or kumfleet@randolphkids.org
